Our Unique approach to tuning scalar to induce Stillpoint

Our revolutionary unique approach to scalar healing energy technology was developed by craniosacral therapist and developer of Stillpoint Yogic process, seminar and retreats. This unique approach of subtle tuning the scalar to unwind cell memory and the craniosacral system and induces the subtle yogic state of Stillpoint or “the space between the breath”.

We use this unique scalar subtle approach of unwinding and inducing Stillpoint in all of our scalar healing family of products, including the Scalar Laser, Scalar QiFi purifier, Scalar Healing Yoga Pads and Scalar Alchemy Portal and Alchemy Charging Plates. All of our Scalar Healing Products have this unique, patented approach to scalar healing technology and in particular to inducing the subtle yogic state of Stillpoint.

Our unique approach to scalar healing technology weaves in to our Stillpoint Yogic approach to seminars and retreats which are based on the practice to access and use Stillpoint as a tool for the New Season. This approach and the scalar healing technology is used by over 25,000 healers, practitioners, and laypeople around the planet.

We invite you to experience Stillpoint. Take a nice breath in, at the top of the breath drop in to the space between and rest here in Stillpoint.
